Spanish Program:

Provides young learners with a foundation for later success with the Spanish language, music, games, children's Spanish literature, and other tools give children multiple opportunities to hear, practice, and see Spanish language for vocabulary and conversational development. Curriculum includes lessons on greetings, numbers, colors, animals, family, body parts and pets as well as how to get engage conversationally during common scenarios at home, a restaurant, or at the zoo. Que pasa?

Music Program:

Ongoing research proves that early exposes to music helps children think, reason, create, and express themselves. Children will laugh and learn about rhythm, vocal melodies, and a variety of musical genres and instruments, which can lower stress and advance memory. Learning never sounded good.

Drama Program:

Students will learn terms, dramatic concepts and expression, develop the skills needed for performance and will learn character development. The children create their very own play up to 20 minutes which they produce at the end of the school year.
